

“Crafted to Lift Your World”

ABOUT US

Dymaxa Lift Eng. Co. is a fast-growing and trusted name in the elevator manufacturing industry, established by Mr. Kamleshbhai S. Dhorajiya. Built on strong engineering principles and a commitment to innovation, the company delivers safe, durable, and high-performance vertical mobility solutions.

With expertise in designing and manufacturing a wide portfolio of elevators, Dymaxa Lift Eng. Co. caters to residential, commercial, and industrial sectors. Every product is developed with a focus on safety, efficiency, comfort, and long-term reliability.

In addition to manufacturing, the company provides end-to-end elevator solutions, including:

☑ Installation ☑ Modernization & Upgradation ☑ Repairs & Maintenance Services

Our skilled team works with precision, integrity, and customer-centric service to ensure smooth operation and maximum satisfaction.

Driven by advanced technology, quality-oriented processes, and continuous improvement, Dymaxa Lift Eng. Co. remains committed to elevating safety, convenience, and mobility—today and for the future.

Vision

To serve excellence to all our clients every time while inspiring confidence through quality and convenience

Motto

"Assuring Safety, Inspiring Future"

Our primary concern is the safety of our product. We make sure that the products that reach the clients are in the best condition. With this, we desire to achieve finest quality in elevator parts.

OUR PRODUCTS

PASSENGER LIFT

AUTOMOBILE & CAR LIFT

GOODS & FREIGHT LIFT

PASSENGER LIFT

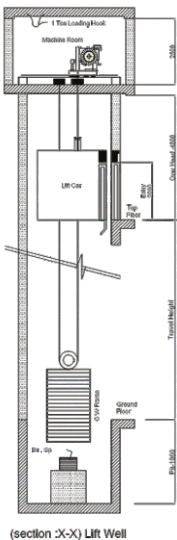

Capacity : 4-15 Passengers

We designed this system to deliver a superior experience. Every measure is taken to ensure riders enjoy maximum security and comfort on every journey.

- ✓ Intuitive Controls : Clear display and easy-to-use, high-sensitivity buttons.
- ✓ Enhanced Rider Comfort : Features an ergonomic (humane) handrail (optional).
- ✓ Clear Communication : Optional voice announcement system.

HOSPITAL LIFT

Capacity : 15 to 26 Passengers.

Function : They provide easy transportation for patients and bulky medical equipment such as gurneys, stretchers, and wheelchairs.

Features:

- ✓ Sophisticated looks and smooth operation.
- ✓ Available in a wide variety.
- ✓ Usually feature center-opening, telescopic power-operated doors and are easy to use for people.

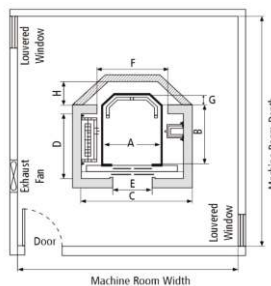

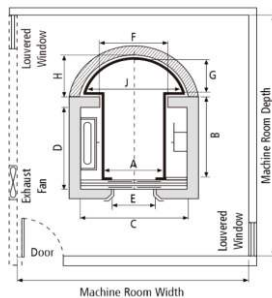

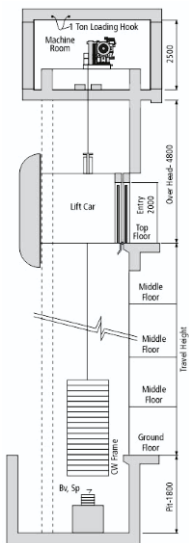

HYDRAULIC LIFT

Looking for a low-maintenance elevator? Hydraulic lifts provide the advantages of being relatively inexpensive, safe and easy to maintain. They're very convenient and cost-effective solution for low-rise buildings with low traffic.

Hydraulic elevators have been rated the safest option for home elevators. They boast superb user friendliness and easy access machine room located at the basement. Once they are put in place, hydraulic elevators provide the smoothest rides possible.

CAPSULE LIFT

Capacity : 08 to 20 Passengers

Glass capsule elevators give an upscale, attractive feel to offices, shopping malls, multiplexes and other prestigious buildings. These lifts owe their stunning looks to the large glass viewing panels which provide entertaining ride to passengers.

Capsule elevators work just as well as small person lifts for private homes as they do in large office and commercial buildings. Installation on the exterior face of the building or in the lobby will totally change the look of a building and of course, they incorporate the technology.
